A CONVENTION OF TOBACCO GROWERS .- A Convention of the producers and buyers of tobacco will be held in Louisville, Ky., on the 25th of May next. That is the day fixed for awarding premiums to the growers of the best tobacco under the auspioies of the State Agricultural Society. The design of the Convention is to bring the producers and purchasers together, in order to an interchange of opinions. The Agriculturists may learn what grades are best suited to the market and will meet the most ready sale. The Louisville Journal, speaking of the great commercial importance of the staple says, that the value of raw tobacco exported from the United States to Great Britian was over \$3,500,000 in 1855, and during the first half of the present century that country collected import duties on it to the amount of enormous aggregate of over

BIRD-CAGES: \$570,000,000. The total value of our exand in 1858 amounted to \$19,409.882 .-During the first nine months of 1859 the import revenue derived by France from it was over \$25,000,000, fourfifths of which were exported from the United States .-The Cyclopedia of Commerce says that tobacco, next to salt is probably the article most consumed by men. In one form or another, but most generally in the form of tume or smoke, there is no climate in which it is not consumed and no nationality that has not adopted it. To put down its use has equally buffled legislators and moralists, and, in the words of Pope, on a higher object, it may be said to be partaken of "by saint, by savage, and by sage." The aver-BOOKSELLERS, STATIONERS, age consumption per head of male population over eighteen years, in some countries, seem almost fabulous. In the German
